

AVI3M1 The Business of Art Terminology Worksheet

(s) _____

Worksheet can be completed individually (boring and tedious?) or collaboratively as a group. (Hint - use collaborative tools such as [Google Drive](https://drive.google.com/) (formerly Google Docs) to fill out this worksheet as a dynamic team online.

Research and fill in the definition or explanation for the terms below. If you are completing this as collaborative research, please place your initials in the "Work By" column to identify work done by you. If you are revising or editing a definition, place your initial in the "Edited By" column.

Just as the definition is true and accurate, writing the definition in your own words is fine. Have at least one other person check your answer for accuracy.

A good place to start your research is <http://www.businessdictionary.com/>
